

Welcome Jeannette Bauer, ARNP

FCPHD Board of Trustees invites the community to join us in welcoming ARNP Jeannette Bauer as the newest member to our growing team of medical providers. Jeannette began working at the District this April.

After earning a Bachelor of Science in Nursing (BSN) at Seattle Pacific University in Seattle WA, Jeannette continued her medical education and graduated with a Masters in Nursing Science from Ball State University in Muncie Indiana in 2006. She then became a Board Certified as a Family Practice ARNP with the American Academy of Nurse Practitioners.

Jeannette has experienced a variety of ARNP positions in her career while continuing to focus on Family Practice. Amidst family commitments her career thus far has consisted of many part-time positions after 4 plus years of full time. These medical experiences included being a Nurse Clinical Instructor for Carson Newman College in Jefferson City, Tennessee and as a provider with the Community Medical Group of the Community Medical Center in Missoula, MT. Her most recent employment was as a provider with the detention center in Hamilton, MT through Spectrum Benefits, hospice through Missoula based Compassas Rocky Mountain Hospice, and home medical assessments through EMSI in Montana.

Jeannette enjoys listening to music, reading, scrapbooking and sewing, although she admitted that her work and family commitments have not allowed her much time to do these. She also has played the flute and piano, the latter for church while growing up. Outdoor activities also enjoyed, but not to the degree she would like, are fishing, hiking, hunting and shooting, which hopefully she'll find more opportunity while here in Republic. She also admitted to doing some quilting and crocheting, but not for some time.

Jeannette is looking forward to focusing on her full-time ARNP position with FCPHD. Joining her in Republic is her husband Troy, who is a diesel mechanic, and sons Thatcher, 10, and Carsten, 4. With Jeannette joining FCPHD, we now have grown to a team of seven family practice providers : Farhad AlRashedy, MD; Richard Garcia, DO; Mari Hunter, ARNP; Jodi Petersen, ARNP; Jim Corbett, PA-C; Craig Christopher, PA-C, and now Jeannette.

Please. join us in welcoming ARNP Jeannette Bauer as we continue moving forward on our mission “To strengthen the health and well-being of our community through partnership and trust.”
