

Clyde the therapy dog

By Aaron Edwards, CEO

Ferry County Public Hospital District (FCPHD) welcomed a very furry and distinguished guest this past Friday morning. Clyde the therapy dog and Noreen Taylor, his handler, brought smiles to the faces of hospital and Klondike Hills residents. The Taylor's moved to Republic from California to retire to the area. Clyde is registered with the BARK therapy dog program and brings three years of experience working with hospice patients. He is a five year old Brussels Griffon. We are pleased to announce that Clyde and Noreen will be regular volunteer visitors to FCPHD!

FCPHD will be talking more about rebuilding the volunteer program in future editions of the hospital happenings. If you have a desire to serve as volunteer please contact Nina Novikoff at 509-775-3333.
