

National Assisted Living Week

By Julia Harmon, Associate Manager Klondike Hills Assisted Living

Did you know that National Assisted Living Week was established in 1995 by the NCAL (National Center of Assisted Living)? This year it is going to be September 11th through the 17th. The annual observance enwraps communities around the country to recognize the role assisted living plays with our seniors and individuals with disabilities. We have several activities scheduled this week for our residents and community members. The National Honor Society from the high school will be up to play bingo with the residents. We will also be having “Pints and Laughs” with Linda (a smaller version of our local “Paints and Pints”). We take

monthly trips to Colville, Omak, beautiful downtown Republic, and various country drives.

Klondike Hills has a caring staff that is available to take care of your loved one’s needs; everything from medication assistance, making or taking patients to appointments, and helping with activities of daily living.

At this time the assisted living has two openings. If you are interested in a tour or an application call our staff at (509)775-8234 or just stop in for a visit, a cup of coffee, and a fresh cookie.
